tips

Describe your project using this form. You can always make changes later.
In the title, mention the key technologies the project involves.
Keep the project descriptions concise.
Use attachments to add detailed schematics and requirements.
If you are unsure of the contract amount, specify a reasonable sum, and negotiate the value in a private discussion room.

Title: Load Balancing Switch or Router for Scaleable WebSite

Summary: Need ultra reliable solution with low overhead code on linux platform that checks webfarm machines running ASP using Session objects to route browser traffic to webserver with lowest load. The solution should also work with AOL traffic.

Keywords: F5. load- balancing switch. NT. router. Windows

Categories: Networking > Routers
Networking > Switches
Networking > Administration

Project Type	Proposal
Estimated Contract Value	US\$ 4,000
Submitted Date	Wednesday, December 15, 1999
Expiration Date	<input type="text" value="2/13/2000"/> mm/dd/yyyy
Status	Proposals Received
Billing Contact	<input type="text" value="joe@hellobrain.com"/>
Technical Contact	<input type="text" value="joe@hellobrain.com"/> <input type="button" value="update"/>

Proposals Received: 1 Page Hits: 184
Proposals Accepted: 0

Project Description

ASP sessions need to be maintained. The switch will find new web servers that are installed dynamically and circumvent servers that are down or not responding. It will maintain sessions going to the same server or you should explain how a webserver would redirect the request to the appropriate server. The best proposal will include suggestions on saving shelf space and maximizing throughput.

Subject: re: comparison against F5 and other switches

Reply

Sounds good, I'll put together some documentation regarding the advantages of this product, and the others. What sort of hourly rate are we talking about?
